Pupil wellbeing and support	24
School workforce	25
Educational visits	25
Wraparound provision and extra-curricular activity	27
Contingency planning / outbreak management plan	28

Key changes in approach

Mixing and bubbles

- We no longer recommend that it is necessary to keep children in consistent groups ('bubbles'). This means that bubbles will not need to be used for any summer provision (for example, summer schools) or in schools from the autumn term.
- As well as enabling flexibility in curriculum delivery, this means that assemblies can resume, and you no longer need to make alternative arrangements to avoid mixing at lunch.

Tracing close contacts and isolation

- Settings only needed to do contact tracing up to and including 18 July. Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing.
- As with positive cases in any other setting, NHS Test and Trace will work with the positive case and/or their parent to identify close contacts. Contacts from a school setting will only be traced by NHS Test and Trace where the positive case and/or their parent specifically identifies the individual as being a close contact. This is likely to be a small number of individuals who would be most at risk of contracting COVID-19 due to the nature of the close contact. You may be contacted in exceptional cases to help with identifying close contacts, as currently happens in managing other infectious diseases.
- Individuals are not required to self-isolate if they live in the same household as someone with COVID-19, or are a close contact of someone with COVID-19, and any of the following apply:
 - they are fully vaccinated
 - they are below the age of 18 years and 6 months
 - they have taken part in or are currently part of an approved COVID-19 vaccine trial
 - they are not able to get vaccinated for medical reasons

Instead, they will be contacted by NHS Test and Trace, informed they have been in close contact with a positive case and advised to take a PCR test. We would encourage all individuals to take a PCR test if advised to do so.

- Staff who do not need to isolate, and children and young people aged under 18 years 6 months who usually attend school, and have been identified as a close contact, should continue to attend school as normal. They do not need to wear a face covering within the school, but it is expected and recommended that these are worn when travelling on public or dedicated transport.
- 18-year-olds will be treated in the same way as children until 6 months after their 18th birthday, to allow them the opportunity to get fully vaccinated. At which point, they will be subject to the same rules as adults and so if they choose not to get vaccinated, they will need to self-isolate if identified as a close contact.
- Settings will continue to have a role in working with health protection teams in the case of a local outbreak. If there is an outbreak in a setting or if central government offers the area an enhanced response package, a director of public health might advise a setting to temporarily reintroduce some control measures.

Face coverings

- Face coverings are no longer be advised for pupils, staff and visitors either in classrooms or in communal areas
- The government has removed the requirement to wear face coverings in law but expects and recommends that they are worn in enclosed and crowded spaces where you may come into contact with people you don't normally meet. This includes public transport and dedicated transport to school or college.
- If you have a substantial increase in the number of positive cases in your school, a director of public health might advise you that face coverings should temporarily be worn in communal areas or classrooms (by pupils, staff and visitors, unless exempt). You should make sure your contingency plans cover this possibility.

Stepping measures up and down

- You should have contingency plans (sometimes called outbreak management plans) outlining how you would operate if there were an outbreak in your school or local area.
- Central government may offer local areas of particular concern an enhanced response package to help limit increases in transmission.
- For most settings it will make sense to think about taking extra action if the number of positive cases substantially increases. Information on what circumstances might lead you to consider taking additional action, and the steps you should work through, can be found in the contingency framework.
- The contingency framework describes the principles of managing local outbreaks of COVID-19 in education and childcare settings. Local authorities, directors of public health (DsPH) and PHE health protection teams (HPTs) can recommend measures described in the contingency framework in individual education and childcare settings – or a small cluster of settings – as part of their outbreak management responsibilities.

Control measures

You should:

1. Ensure good hygiene for everyone
2. Maintain appropriate cleaning regimes.
3. Keep occupied spaces well ventilated
4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.

Risk assessment

What are the hazards?

- Potential for spread of COVID-19 between persons at school showing symptoms of coronavirus or those who are confirmed to have coronavirus.

Who might be harmed and how?

- Staff, pupils, contractors, and visitors may catch COVID-19 via direct or indirect contact with carriers whilst on site.
- Potential for spread to other family members / persons.

Note: We have specifically removed any rating or scoring from this risk assessment. We do not feel this adds any significant benefit to this untypical situation. You may wish to prioritise any actions, but the basis of the approach to mitigating the risks from coronavirus is such that all measures should be carried out alongside each other rather than in sequence. The planning and assessment you undertake will form the basis of an overall plan to manage the risks specific to your setting which is the most important aspect of this process.

This risk assessment is based on Department for Education (DfE) School's coronavirus (COVID-19) operational guidance (applies from Step 4) as published on 17 August 2021.

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
Respiratory hygiene					
<ul style="list-style-type: none"> The 'catch it, bin it, kill it' approach continues to be very important 	<ul style="list-style-type: none"> Are there enough tissues and bins available in the school to support pupils and staff to follow this routine? Ensure that younger children and those with complex needs are helped to get this right. Are there risk assessments in place for pupils with complex needs who will struggle to maintain as good respiratory hygiene as their peers? All staff should be briefed weekly as a minimum on expected hygiene standards. All staff instructed to actively monitor to ensure all pupils and colleagues are adhering to principles of good hygiene. 	<ul style="list-style-type: none"> Catch it Bin it Kill it signs around the school Tissues in all locations Monitoring supplies Flip lid labelled red bins for tissues, emptied regularly Younger and SEND pupils reminded to use tissues and supervision given Risk assessment in place for COIN pupils Good hygiene embedded into school culture All staff are instructed to actively monitor to ensure all pupils and colleagues are adhering to principles of good hygiene 	All staff	Autumn 21 Spring 22	
Use of personal protective equipment					
<ul style="list-style-type: none"> Most staff in schools will not require PPE beyond what they would normally need for their work. If a pupil already has routine intimate care needs that involve the use of PPE, the same PPE should continue to be used. Additional PPE for COVID-19 is only required in a very limited number of scenarios, for example, when: <ul style="list-style-type: none"> If a pupil becomes ill with COVID-19 symptoms, and only then if close contact is necessary 	<ul style="list-style-type: none"> Where staff have been identified as needing PPE, have they been provided with appropriate supplies? Have staff identified as needing PPE been provided with appropriate training and information on correct use and disposal? 	<ul style="list-style-type: none"> PPE in central points and worn for suspected COVID case Staff had training on wearing and disposal of PPE Gloves worn for minor first aid Gloves and aprons should be worn for supporting intimate care 	Head Staff Admin	Autumn 21 Spring 22	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<ul style="list-style-type: none"> ▪ When performing aerosol generating procedures (AGPs) ▪ Reference to PPE for higher risk situations means: <ul style="list-style-type: none"> ▪ Fluid-resistant surgical face masks (also known as Type IIR) ▪ Disposable gloves ▪ Disposable plastic aprons ▪ Eye protection (for example a face visor or goggles) ▪ The PPE that should be used in the following situations when caring for someone with symptoms of COVID-19 is: <ul style="list-style-type: none"> ▪ A face mask should be worn if close contact is necessary ▪ If contact is necessary, then gloves, an apron and a face mask should be worn ▪ Eye protection if a risk assessment determines that there is a risk of fluids entering the eye, for example, from coughing, spitting or vomiting 					
Face coverings					
<ul style="list-style-type: none"> ▪ Face coverings are no longer advised for pupils, staff and visitors either in classrooms or in communal areas ▪ The government has removed the requirement to wear face coverings in law but expects and recommends that they are worn in enclosed and crowded spaces where you may come into 	<ul style="list-style-type: none"> ▪ Review use of face coverings for enclosed and crowded spaces including where you would meet people you do not normally encounter. ▪ Recommend use on all school transport, public or dedicated. ▪ Consider face coverings for events such as open days and productions. 	<ul style="list-style-type: none"> ▪ Staff wear on gate duty, walking around school and in communal areas. ▪ Parents and staff advised to wear in enclosed and crowded parent events ▪ Advise to wear on Open days 	SLT Staff Parents	Autumn 21 Spring 22	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
3. Keep occupied spaces well ventilated					
<ul style="list-style-type: none"> ▪ When your school is in operation, it is important to ensure it is well ventilated and that a comfortable teaching environment is maintained. ▪ You should identify any poorly ventilated spaces as part of your risk assessment and take steps to improve fresh air flow in these areas, giving particular consideration when holding events where visitors such as parents are on site, for example school plays. ▪ Mechanical ventilation is a system that uses a fan to draw fresh air, or extract air from a room. These should be adjusted to increase the ventilation rate wherever possible and checked to confirm that normal operation meets current guidance and that only fresh outside air is circulated. ▪ If possible, systems should be adjusted to full fresh air or, if this is not possible, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply. ▪ Where mechanical ventilation systems exist, you should ensure that they are maintained in accordance with the manufacturers' recommendations. ▪ Opening external windows can improve natural ventilation, and in addition, opening internal doors can also assist 	<ul style="list-style-type: none"> ▪ If air handling systems that move air between rooms are used set them to use a fresh air supply and do not recirculate air. Standalone room units can operate as normal. ▪ Ensure any filters in ventilation or air conditioning systems are changed as per manufacturer instructions. Take additional care when changing filters. ▪ Airing rooms as frequently as you can, will help improve ventilation. This involves opening all doors and windows wide to maximise the ventilation in the room. It may be easier to do this when the room is unoccupied or between uses particularly in colder or adverse weather. ▪ Manage colder temperatures in rooms by opening high level not low-level windows, opening window just enough to allow for ventilation, increasing heating and allowing for flexibility on uniform. ▪ Identify any poorly ventilated areas and consider if these areas should be restricted or if ventilation can be improved by increasing the flow of fresh air. ▪ Desk or ceiling fans can be used provided the area is well ventilated, but 	<ul style="list-style-type: none"> ▪ Classrooms and communal areas are well ventilated ▪ Posters to remind staff of the importance of ventilation ▪ Staff and pupils are advised to wear additional layers of clothing ▪ Air conditioning unit in the reading bus not in use ▪ Will look at ventilation strategy before any parent or whole school events 	Staff	Autumn 21 Spring 22	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<p>with creating a throughput of air. If necessary, external opening doors may also be used (if they are not fire doors and where safe to do so).</p> <ul style="list-style-type: none"> You should balance the need for increased ventilation while maintaining a comfortable temperature. 	<p>they should not be used in poorly ventilated areas.</p> <ul style="list-style-type: none"> With due regard to fire safety, some doors may be temporarily propped open to limit touching of door handles and aid ventilation. Fire doors including doors at the top and base of stairs, or to higher risk areas of fire starting e.g. kitchens / IT suites / plant rooms should not be propped open. Where events such as school plays or open days are planned consider the need to improve ventilation as part of your planning. 				
<p>4. Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19</p>					
<p>When an individual develops COVID-19 symptoms or has a positive test</p>					
<ul style="list-style-type: none"> Pupils, staff and other adults should follow public health advice on when to self-isolate and what to do. They should not come into school if they have symptoms, have had a positive test result or other reasons requiring them to stay at home due to the risk of them passing on COVID-19 (for example, they are required to quarantine). If anyone in your school develops COVID-19 symptoms, however mild, you should send them home and they should follow public health advice. If a pupil in a boarding school shows symptoms, they should usually self-isolate in their residential setting so that their usual support can continue, 	<ul style="list-style-type: none"> Is there a procedure for managing suspected or positive cases of coronavirus? Consider what information or measures may be needed at school gates and entrances to the building, as well as on the school website. How will visitors to site be managed? Is there an appropriate room identified that can be used to isolate someone with symptoms whilst they are awaiting collection? Have welfare staff and others been trained in measures to take? Have welfare staff and others been provided with PPE and training on its use and disposal? 	<ul style="list-style-type: none"> Staff have had training on the school procedure for managing a suspected or positive case of COVID Clear procedures visible in the school Signs on school gate advising people not to enter with COVID symptoms Regular communication to school community Allocated room for child to wait in and staff wear PPE Signing in book for all staff and visitors All contractors sign in and leave contact details. 	<p>SLT Staff</p>	<p>Autumn 21 Spring 22</p>	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<p>others may then benefit from self-isolating in their family home.</p> <ul style="list-style-type: none"> ▪ For everyone with symptoms, they should avoid using public transport and, wherever possible, be collected by a member of their family or household. ▪ If a pupil is awaiting collection, they should be left in a room on their own if possible and safe to do so. A window should be opened for fresh air ventilation if possible. ▪ Appropriate PPE should also be used if close contact is necessary, further information on this can be found in the use of PPE in education, childcare and children’s social care settings guidance. ▪ Any rooms they use should be cleaned after they have left. ▪ The household (including any siblings) should follow the PHE stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection. 		<ul style="list-style-type: none"> ▪ Only invited parties attending school site ▪ Limiting parents in school building 			
Cleaning a room or area after a person with symptoms of COVID-19, or confirmed COVID-19, has left the setting					
<ul style="list-style-type: none"> ▪ The minimum PPE to be worn for cleaning an area after a person with symptoms of COVID-19, or confirmed COVID-19, has left the setting, is disposable gloves and an apron. Wash hands with soap and water for 20 seconds after all PPE has been removed. 	<ul style="list-style-type: none"> ▪ Is there a procedure in place for cleaning an area where a person with symptoms of COVID-19 or a confirmed case of COVID-19 has been? ▪ Is the appropriate PPE being used? ▪ Are appropriate cleaning products or methods being used? 	<ul style="list-style-type: none"> ▪ Area is secured off and a deep clean arranged ▪ All areas the suspected case has been wiped down and disinfected by staff in PPE ▪ Cleaning cloths securely disposed of 	Staff	Autumn 21 Spring 22	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<ul style="list-style-type: none"> ▪ If a risk assessment of the setting indicates that a higher level of virus may be present then additional PPE to protect the cleaner’s eyes, mouth and nose may be necessary. ▪ Public areas where a symptomatic person has passed through and spent minimal time but which are not visibly contaminated with body fluids, such as corridors, can be cleaned thoroughly as normal. ▪ All surfaces that the symptomatic person has come into contact with should be cleaned and disinfected, including all potentially contaminated and frequently touched areas such as bathrooms, door handles, telephones, grab rails in corridors and stairwells. ▪ Use disposable cloths or paper roll and disposable mop heads, to clean all hard surfaces, floors, chairs, door handles and sanitary fittings – think one site, one wipe, in one direction. ▪ Use one of the options below: <ul style="list-style-type: none"> ▪ a combined detergent disinfectant solution at a dilution of 1,000 parts per million available chlorine (ppm av.cl.) or ▪ a household detergent followed by disinfection (1000 ppm av.cl.). Follow manufacturer’s instructions for dilution, application and contact 					

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<p>times for all detergents and disinfectants or</p> <ul style="list-style-type: none"> ▪ if an alternative disinfectant is used within the organisation ensure that it is effective against enveloped viruses ▪ Avoid mixing cleaning products together as this can create toxic fumes. Avoid creating splashes and spray when cleaning. ▪ Any cloths and mop heads used must be disposed of and should be put into waste bags as contaminated waste ▪ When items cannot be cleaned using detergents or laundered, for example, upholstered furniture and mattresses, steam cleaning should be used. 					
Contaminated waste					
<ul style="list-style-type: none"> ▪ Contaminated or potentially contaminated waste must be dealt properly to reduce the risk of the spread of coronavirus. 	<ul style="list-style-type: none"> ▪ Personal waste from individuals with symptoms of COVID-19 and waste from cleaning of areas where they have been (including PPE, disposable cloths and used tissues) should be: <ul style="list-style-type: none"> ▪ Put in a plastic rubbish bag and tied when full ▪ The plastic bag should then be placed in a second bin bag and tied ▪ This should be put in a suitable and secure place and marked for storage until the individual's test results are known ▪ This waste should be stored safely and kept away from children. It should not 	<ul style="list-style-type: none"> ▪ Training for all staff on the safe disposal of waste products/used PPE ▪ Outside specific labelled bin for PPE equipment. Follow government guidance on how to store and left for 72 hours 	<p>Head Staff</p>	<p>Autumn 21 Spring 22</p>	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
	<p>be placed in communal waste areas until negative test results are known, or the waste has been stored for at least 72 hours.</p> <ul style="list-style-type: none"> ▪ If the individual tests negative, this can be disposed of immediately with the normal waste. ▪ If COVID-19 is confirmed this waste should be stored for at least 72 hours before disposal with normal waste. 				
Asymptomatic testing					
<ul style="list-style-type: none"> ▪ Testing remains important in reducing the risk of transmission of infection within schools. That is why, whilst some measures are relaxed, others will remain, and if necessary, in response to the latest epidemiological data, we all need to be prepared to step measures up or down in future depending on local circumstances. ▪ Over the summer, staff and secondary pupils should continue to test regularly if they are attending settings that remain open, such as summer schools and out of school activities based in school settings. Schools will only provide tests for twice weekly asymptomatic testing for pupils and staff over the summer period if they are attending school settings. ▪ However, testing will still be widely available over the summer and kits can 	<ul style="list-style-type: none"> ▪ Plan for retaining a small on-site testing centre in secondary schools only. ▪ Complete a risk assessment for the testing process relevant for your setting (templates are available). ▪ Communicate procedures for continued testing for the start of term and during September and continue to encourage take up of testing. 	<ul style="list-style-type: none"> ▪ All staff (100% take up) do 2x weekly lateral flow tests and record results to school and government website. ▪ Clear procedures of how to alert school of the result (positive or negative) ▪ Staff do a test 03.01.22 before returning to school ▪ Allocated staff member orders the kits to school and distributes to staff ▪ Parents advised how to get the home testing kits ▪ Contingency plan (increase frequency if necessary) 	<p>SLT</p> <p>Staff</p> <p>Parents</p>	<p>Autumn 21</p> <p>Spring 22</p>	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<p>be collected either from your local pharmacy or ordered online.</p> <ul style="list-style-type: none"> ▪ As pupils will potentially mix with lots of other people during the summer holidays, all secondary school pupils should receive 2 on-site lateral flow device tests, 3 to 5 days apart, on their return in the autumn term. ▪ Settings may commence testing from 3 working days before the start of term and can stagger return of pupils across the first week to manage this. Pupils should then continue to test twice weekly at home until the end of September, when this will be reviewed. ▪ Staff should undertake twice weekly home tests whenever they are on site until the end of September, when this will also be reviewed. ▪ Secondary schools should also retain a small asymptomatic testing site (ATS) on-site until further notice so they can offer testing to pupils who are unable to test themselves at home. ▪ There is no need for primary age pupils (those in year 6 and below) to test over the summer period. They will be offered the 2 tests at an ATS at the beginning of the autumn term when they start at their secondary school as a new year 7. Schools may choose, however, to start testing year 6 pupils 					

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
earlier, including in summer schools, depending on their local circumstances.					
Confirmatory PCR tests					
<ul style="list-style-type: none"> ▪ Staff and pupils with a positive LFD test result should self-isolate in line with the stay at home guidance. They will also need to get a free PCR test to check if they have COVID-19. ▪ Whilst awaiting the PCR result, the individual should continue to self-isolate. ▪ If the PCR test is taken within 2 days of the positive lateral flow test, and is negative, it overrides the self-test LFD test and the pupil can return to school, as long as the individual does not have COVID-19 symptoms. ▪ Additional information on PCR test kits for schools and further education providers is available. 	<ul style="list-style-type: none"> ▪ Ensure staff, students and parents understand what to do in the event of a positive test, including arranging a confirmatory PCR test. ▪ Ensure that staff, students, and parents understand that symptomatic testing still needs to take place and that it can be booked online. 	All school community advised of the procedure if you have a positive LFD test	SLT Staff Parents	Autumn 21 Spring 22	
Tracing close contacts and isolation					
<ul style="list-style-type: none"> ▪ Close contacts will now be identified via NHS Test and Trace and education settings will no longer be expected to undertake contact tracing. ▪ Contacts from a school setting will only be traced by NHS Test and Trace where the positive case and/or their parent specifically identifies the individual as being a close contact. You may be contacted in exceptional cases to help with identifying close contacts, as 	<ul style="list-style-type: none"> ▪ Communicate latest requirements on who is required to isolate and who is not to the school community. ▪ Encourage those contacted by NHS Test and Trace to take a PCR test where advised to do so. ▪ Advise that those who do not need to self-isolate who have been identified as a close contact can attend school as normal and do not need to wear a face covering in schools, but that it is expected that they should wear a face 	<ul style="list-style-type: none"> ▪ Parents and staff advised on latest isolation rules ▪ SLT advise staff and children to have a PCR if they have had close contact with positive case 	Head SLT	Autumn 21 Spring 22

Remote education					
<ul style="list-style-type: none"> Not all people with COVID-19 have symptoms. Where appropriate, you should support those who need to self-isolate because they have tested positive to work or learn from home if they are well enough to do so. Schools subject to the remote education temporary continuity direction are required to provide remote education to pupils covered by the direction where their attendance would be contrary to government guidance or legislation around COVID-19. You should maintain your capacity to deliver high quality remote education for next academic year, including for pupils who are abroad, and facing challenges to return due to COVID-19 travel restrictions, for the period they are abroad. Independent Schools (not including academies) are only covered by the remote education temporary continuity direction in relation to state-funded pupils in their schools. However, they are still expected to meet the 	<ul style="list-style-type: none"> Have plans in place for high quality remote provision of education for those unable to attend school. Have plans in place and work with families to have appropriate provision for pupils with SEND. 	<p>Strong remote learning plan in place and online teaching will deliver the curriculum. This plan is adapted to meet the needs of SEND</p>	<p>SLT Staff</p>	<p>Autumn 21 Spring 2022</p>

School workforce					
<ul style="list-style-type: none"> ▪ School leaders are best placed to determine the workforce required to meet the needs of their pupils. ▪ Clinically extremely vulnerable (CEV) people advised, as a minimum, to follow the same guidance as everyone else. It is important that everyone adheres to this guidance but CEV people may wish to think particularly carefully about the additional precautions they can continue to take. ▪ Social distancing measures have now ended in the workplace and it is no longer necessary for the government to instruct people to work from home. Employers should be able to explain the measures they have in place to keep CEV staff safe at work. The Health and Safety Executive (HSE) has published guidance on protecting vulnerable workers, including advice for employers and employees on how to talk about reducing risks in the workplace. ▪ We welcome your support in encouraging vaccine take up and enabling staff who are eligible for a vaccination to attend booked vaccine appointments where possible even during term time. 	<ul style="list-style-type: none"> ▪ Share this risk assessment with staff and invite feedback. ▪ Carry out individual risk assessments and discussions as required. ▪ From 13 December office workers who can work from home should do so. Anyone who cannot work from home, such as those involved in the face-to-face provision of education, should continue to go to their place of work. School leaders are best placed to determine the workforce required to meet the needs of their pupils. School leaders will need to consider whether it is possible for specific staff undertaking certain roles to work from home without disrupting to face-to-face education. 	<ul style="list-style-type: none"> ▪ Risk assessment shared with staff and accessible in school ▪ Individual risk assessments carried out if required ▪ School give time in workday for staff to attend vaccine appointment 	SLT Staff	Autumn 21 Spring 2022

<p>to rebook educational or international visits.</p> <ul style="list-style-type: none"> You should undertake full and thorough risk assessments in relation to all educational visits and ensure that any public health advice, such as hygiene and ventilation requirements, is included as part of that risk assessment. General guidance about educational visits is available and is supported by specialist advice from the Outdoor Education Advisory Panel (OEAP). 					
Wraparound provision and extra-curricular activity					
<ul style="list-style-type: none"> Out-of-school settings and wraparound childcare providers can offer provision to all children, without restriction on the reasons for which they may attend. Wraparound childcare and other organised activities for children may take place in groups of any number. We are no longer recommending that it is necessary to keep children in consistent groups ('bubbles'). Close contacts will be identified via NHS Test and Trace and out-of-school settings will not be expected to undertake contact tracing. We no longer advise that providers limit the attendance of parents and carers at sessions. You should continue to ensure that you have parents' and carers' most up-to date contact details in case of an emergency. 	<ul style="list-style-type: none"> Have cleaning arrangements been considered, particularly for frequently touched surfaces and any equipment that is shared. Ensure there is clear communication with any external providers on school measures and approach. Consider contingency arrangements and planning in place in case of any local public health protection advice. 	<ul style="list-style-type: none"> Follow school good hygiene measures All spaces around are pre booked with contact details Timetabled meetings between SLT and providers 	SLT GAP Staff	Autumn 21 Spring 2022	

DfE Guidance	Measures to consider	What do you need to do at your school to manage this	Who will do this?	By when?	Completed on:
<ul style="list-style-type: none"> All sports provision, including competition between settings, should be planned and delivered in line with current guidance. 					
Contingency planning / outbreak management plan					
<ul style="list-style-type: none"> You should have outbreak management plans outlining how you would operate if there were an outbreak in your school or local area. Given the detrimental impact that restrictions on education can have on children and young people, any measures in schools should only ever be considered as a last resort, kept to the minimum number of schools or groups possible, and for the shortest amount of time possible. The contingency framework describes the principles of managing local outbreaks of COVID-19 in education and childcare settings. Local authorities, directors of public health (DsPH) and PHE health protection teams (HPTs) can recommend measures described in the contingency framework in individual education and childcare settings – or a small cluster of settings – as part of their outbreak management responsibilities. 	<ul style="list-style-type: none"> Prepare a contingency or outbreak management plan. Review your plans against the DfE contingency framework. Have plans in place for high quality remote provision of education. Consider how bubbles, wearing of face coverings, and other social distancing measures could be reintroduced if they were required. Consider how testing may need to be increased if an onus is placed on schools to manage this. Ensure key staff understand the escalation process to get further public health advice via the DfE helpline. 	<ul style="list-style-type: none"> Contingency plan in place Remote learning plan in place 	SLT	Autumn 21 Spring 2022
